

## **INTERNET AGREEMENT**

This Agreement is made on the date that Internet was installed (effective date) by and between ZIRKEL Wireless (hereinafter referred to as ZIRKEL) and the Subscriber of Zirkel Services (hereinafter referred to as Customer). Therefore, for and in consideration of the mutual benefits to be derived under the terms of this agreement, the parties mentioned do mutually agree as follows:

**INTERNET SERVICE** ZIRKEL Wireless will provide Internet access and other ordered services as stated on Customer order. ZIRKEL will provide a working connection to a single ethernet connector and other ordered ZIRKEL devices. Any third-party equipment connected to the ZIRKEL service (including computers, routers, wireless routers, hubs, switches, and any other Internet device) is the sole responsibility of Customer to configure, maintain and service. It is prohibited and considered theft of services to allow persons not located at the service address listed on the Customer account to utilize this Internet connection.

A standard Internet installation connects one computer to the Internet. To connect more than one computer to the Internet, customer must subscribe to ZIRKEL's Managed WiFi or purchase and maintain their own router. The ZIRKEL Wireless' provided antenna has an enabled NAT firewall. However, Customer is responsible for maintaining and protecting all customer supplied devices connected to the ZIRKEL Wireless Network from any threats inherent to the Internet.

Internet service requires a quality signal between the Customers subscriber antenna and the ZIRKEL Network. Customer agrees to keep the subscriber antenna's view of the ZIRKEL Network clear of obstacles including tree branches, accumulated snow, large vehicles, etc.

Customer acknowledges that wireless Internet equipment was installed at customer's premise to Customer's satisfaction, agrees to report service issues in a timely manner and allow representatives of ZIRKEL reasonable opportunities to diagnose and remedy the issue before canceling service for non-performance.

The term will automatically renew on the first of each month unless the router is returned to ZIRKEL. If Managed WiFi is ordered with a new installation, ZIRKEL Wireless will install the router at your location. If Managed WiFi is being added to an existing account, the router must be picked up from a ZIRKEL office in Steamboat or Craig. If the router fails for any reason, it must be returned to ZIRKEL for a replacement. Additional charges may apply if customer requests on-site visit. Customer agrees to;
